

THE HALIBURTON COUNTY ECHO

AND MINDEN RECORDER

Vol. 97 No. 24 Wednesday, January 31, 1979 "The voice of the Highlands" 12 pages 25 cents

Youth found dead in Donald area, murder charge laid

The body of a 15 year old Fenelon Falls youth was discovered beside the old Donald Road late Friday afternoon by police acting on a tip from Beaverton OPP.

The dead youth, whose body was found approximately 20 feet east of the roadway, has been identified as John Cornell, 15, of 47A Colborne Street, Fenelon Falls.

A 24 year old Fenelon Falls man, Stephen Vincent Miller, of 42 Kennedy Drive, appeared before Minden Justice of the Peace, S.D. Elliott Friday to face a charge of first degree murder. He was remanded into custody at the Lindsay jail, and was scheduled to appear in provincial court Monday.

In a tersely worded press release, detective inspector

Tom Hill of the Criminal Investigations Branch, Toronto, says Beaverton OPP were tipped off about the murder by "a male person" who entered the detachment at 4:45 p.m. Friday.

A few minutes later Minden OPP discovered the body of Cornell. Coroner Dr. H.E. Good of Haliburton attended the scene.

The body was transferred to Peterborough Civic Hospital for an autopsy.

Pathologist Dr. W. A. Dawkins attributed death to asphyxia, and noted that there was evidence of strangulation.

Police would reveal no further details about the victim or the man who has been charged.

The investigation continues.

4000 trees hit the wires

Hydro out for days, repairs still underway

Hydro service had been restored to all but a few isolated locations across the county Tuesday in the aftermath of a storm that bent thousands of trees onto lines and caused outages for hundreds of customers.

Exhausted Hydro crews worked shift that stretched to 36 hours before catching a few hours sleep and returning to the job last week in efforts to remove trees that were bent onto lines by heavy wet snow that began falling last Wednesday.

Cal Wilson, Minden area manager for Hydro, said 96 men were used in the repair efforts, including crews from Barrie, Alliston, Orangeville, Bracebridge, Stayner, Penetanguishene, Orillia and Owen Sound.

An estimated 4,000 trees, touched the 900 miles of line that cross the county, Wilson said, stretching and breaking wires. As the snow melted, trees began to straighten again, hitting lines a second time, and causing outages on lines that had been repaired shortly after the storm.

Hydro crews had removed between 1,500 and 2,000 trees by Tuesday, Wilson said, and an estimated 2,000 other storm damaged trees remain to be removed.

Some customers were

without power from late Wednesday afternoon until Monday morning, Wilson said, but most outages had been repaired by the weekend.

A helicopter was used to spot downed lines and to ferry crews into inaccessible areas. Hydro employees also used snowmobiles and snowshoes, to reach areas where road access was impossible.

Wilson praised customers, whom he said were "patient and understanding" about the outages, as well as lodges, motels, restaurants, snowmobile dealers and gas stations who provided accommodation, food and equipment to the crews.

Haliburton Highlands bore the brunt of the storm, which dumped several inches of wind driven snow on a belt stretching from Fenelon Falls to Huntsville.

Despite the pull of snow laden branches on lines, only five poles snapped when trees fell directly on them, Wilson said. The helicopter was used to replace poles that could not be reached by road.

A crew of 25 foresters is working with Hydro linemen this week to remove downed and damaged trees, and Wilson said some customers may experience temporary outages as the work continues.

Art Turner of Bob Lake took a turn at the old cross cut with his partner Ed Hisson of Toronto. The competition was part of the activities at the Minden Winter Carnival on Saturday. Working a cross cut saw efficiently isn't as easy as it looks but the contest was all part of the fun. For more particulars and story see page 3.

Haliburton, Victoria need separate DREE consideration

We're different, council says

Haliburton County council thinks its efforts to have the county made eligible for Department of Regional Economic Expansion (DREE) funding will never succeed so long as the area is thought of in terms of its political boundaries. And at a meeting last Wednesday, council decided a letter should be sent to the federal government asking

that Haliburton County be considered separately from Victoria County for DREE eligibility.

Bill Scott, MP for the riding of Victoria-Haliburton, has acted as council's spokesman in dealings with the federal government and has repeatedly called on Marcel Lessard, the minister responsible for the program, to consider granting DREE funding for the riding. But county council is convinced that considering the area in terms of its riding boundaries would be a mistake. It feels that Victoria County, with its stronger economic base and the built up area of Lindsay, is less in need of DREE aid than Haliburton County. And it

wants the government to consider the two counties individually.

"We were the ones who initiated the move for DREE," Dysart et al. says. "Dysart et al. says, 'and I think we should be dealt with separately.'"

Anson, Hindon and Minden Reeve Sinc Nesbitt agreed.

"I just can't think that they'll give DREE to Victoria," he said. "And I can't think that they need it like we do. We'll never get it as long as we stay linked."

Council agreed to take the matter up by letter with MP Bill Scott and the federal government.

Deer herds still in trouble despite warm temperatures

Deer herds in Haliburton County and many other areas of the province are still facing serious hardships from deep snow and lack of food, despite last week's above freezing temperatures.

Snow depths of 31 inches were recorded in the Minden area by Ministry of Natural Resources staff last week, and heavy falls of wet snow have added to the problem. "Comparing present snow depths with those of several previous winters in which deer have suffered extreme hardship," the Ministry said, conditions for this time of year "are far past the worst conditions noted since recording stations began operation in 1953."

Efforts to break trails for the deer and to cut browse are being hampered by a lack of funds, and by snow conditions.

David Atkinson, fish and wildlife supervisor for the Minden District, said Monday that snowshoeing, the usual method of breaking trails for the deer in heavy bush areas, is ineffective

once the snow becomes saturated with water.

Last week's heavy snowfall brought down branches however, providing some browse.

Cont'd. page 2

Snow, slushy roads contribute to rash of vehicle mishaps

Heavy snowfalls and slushy road conditions resulted in a rash of motor vehicle accidents last week, including a collision between a dump truck and a car, and another between a snowplow and a parked pickup truck.

In the first incident, a car driven by Rebecca Davidson, 18 of Haliburton, collided with a dump truck driven by Donald W. Little, 60, of Haliburton. The accident occurred at 5:16 p.m. last Wednesday.

According to police, Davidson was westbound on highway 121 when her vehicle collided with the dump truck.

Cont'd. page 2

Nine people effected this year

Fewer students by '83, teaching jobs at stake

Enrolment in Haliburton County schools will drop between now and 1983, perhaps by as much as 25 percent and a number of teachers will lose their jobs as a result.

J.D. Hodgson, Director of Education for the Haliburton County School Board, presented trustees with enrolment estimates covering the next five years at a meeting last Wednesday.

Hodgson's figures show current high school enrolment of 634, and project a drop to 396 by 1983. In the elementary schools, September 1978 enrolment of 1404 is expected to fall to 1103 by September 1983 for a total decline of about 500 students or 25 percent of present enrolment.

Nine of the 117 full and part time teachers employed by the Board are expected to lose their jobs this year, Hodgson said in an interview Monday, and others will be effected in the next five years as the number of students continues to decline.

The figures contain "no factor for economic growth," Hodgson said, and actual decline in enrolment could be less if light industries are attracted to the area, as municipal politicians hope.

The planning strategy accepted by County Council

Two men charged with possession of handgun

Two men have been charged with possession of a restricted weapon after police checking a van in Minden Saturday evening discovered a .455 caliber Smith and Wesson pistol and a quantity of shells.

The weapon was found during a search of the van stemming from a liquor violation.

Charged were James Russell Brown, 25, of Pickering, and Paul James McQueen, 26, of no fixed address.

The two told police the weapon had been "borrowed" from its owner, who lives in Bracebridge.

Brown was released to appear in court in Minden. McQueen was held in custody pending a bail hearing.

recently, however, predicts little or no growth in the county over the next five years.

Hodgson's figures are also based on a projected ten percent dropout and transfer rate per year, although the rate has been higher than that figure for some years in the past.

Declining enrolment and its effect on the size of the Board's teaching staff is something that "we'll have to look at every year," Hodgson said.

There are currently 41 teachers at Haliburton Highlands Secondary School, and that number will be reduced to 37 by September, 1979, the Board decided last Wednesday. The 76 1/2 (including part time) teachers in the Board's elementary schools will be reduced to 72 for September, 1979, for a total reduction of 8 1/2 teachers.

Some of those teachers are employed on temporary contracts which will not be renewed, while retirement and other factors could ac-

count for a further reduction.

High school teachers and the board are expected to resume negotiations in the near future on the critical "redundancy clause" of contracts that will set out rules for the termination of employment for teachers no longer needed as the student population declines.

Decisions on staff reductions are expected to be made once student option sheets, which show course selection for the coming year, have been completed.

Kinsmen, OPP meet, race is on once again

Plans for a cross country snowmobile race were back on schedule last week after rumours of an OPP crackdown on the race led to its temporary cancellation.

The race, sponsored by the Kinsmen Club of Haliburton, will be held in conjunction with the Rotary Winter Carnival, January 16, 17 and 18.

Rumours of an OPP crackdown surfaced after the Kinsmen Club applied to run part of the race down the Harburn Road.

Under the terms of the Motorized Snow Vehicle act of 1974, a council may pass bylaws calling for a speed of less than 30 miles and hour on any highway or road in its jurisdiction, or greater than 30 on public trails, parks or exhibition grounds in its jurisdiction, but it cannot legally allow higher speeds on the Harburn Road as the Kinsmen Club had requested.

Police expressed concern about safety and legal responsibility if the Harburn Road were used for part of the race, and rumours began to circulate that radar would be used to ticket speeding racers, and that liquor checks would be held at various points along the 70 mile route.

Fearing bad publicity, according to race chairman Pat Kennedy, the Kinsmen club decided Tuesday night to

cancel the race, and informed Dysart et al. reeve Murray Fearrey of the decision.

But at a meeting, Thursday between the reeve, Kennedy, members of the Kinsmen Club and OPP public services officer Wim Magee, the Kinsmen proposed an alternate route that would avoid the Harburn Road, and the race was back on.

In an interview following the meeting, constable Magee said police had planned no extra measures in connection with the race, and that rumours of liquor checks were unfounded.

"Our concern was about racing down the Harburn Road," he said. "Once the route was taken off the Harburn Road, that ended our concern."

He confirmed however, that police will not ignore

liquor or speeding offences that occur within sight of an officer.

"We're not going to turn a blind eye to violations simply because it's a carnival. If offences are committed in front of an officer, the person will be charged."

He added however, that "there really is no problem provided they don't flout the law right in front of a police officer."

OPP have indicated they may be available to help race organizers at a number of road crossings on the 70 mile route, which begins in Haliburton, heads south to Donald, north to Haliburton Lake, and ends in front of the dock on Head Lake.

Organizers are expecting 65 entrants for the race, which is scheduled to begin at 11:45 a.m. February 17.

Snowmobilers hit trailer, are rushed to hospital

Two snowmobilers were rushed to hospital in Huntsville early Saturday morning after the machines they were riding collided with a parked flatbed trailer.

Minden OPP say Donald Brainard, 20, Hespler, and Henry Brainard, 25, of Cambridge were southbound on County Road 12 near Dorset when the accident occurred, at 4:10 a.m.

Both snowmobilers struck the trailer, owned by Reginald Galway of RR 2 Hornby, which was parked on the east side of the road.

Donald Brainard suffered major injuries and was taken to Huntsville hospital. Damage to his snowmobile was estimated at \$1,000. Henry Brainard suffered minor injuries, and he was also taken

Cont'd. page 2

Fifteen people spent two days learning Cardio Pulmonary Resuscitation (CPR) in Minden last week in a course taught by Dr. Jeffrey Lodenquai. The emergency technique can save lives of drowning, heart attack and electrocution victims. Minden ambulance attendant Dave Magee is also a qualified instructor, and here he helps Mrs. Corrine Fleming practice on a specially equipped mannequin donated by the Rotary Club of Minden.

Toque-Pic says: Get ready!

by Toque-Pic

Haliburton Rotary's Winter Carnival is fast approaching and here I am, your old friend Toquepic, back writing my column which will appear in each edition of this newspaper right up until the carnival is over. You will be seeing me all around Haliburton and area for the next few weeks in store windows, as an ice sculpture in the parade and in many other places. I will try to keep you up on just what you can expect to see when this annual event is held on Friday, Saturday and Sunday, February 16, 17 and 18.

One thing that I would like you to do, and hopefully you have left your Christmas tree lights up, is please turn them on when Carnival time arrives. These lights add so much to the colour of this event.

One of the big attractions once again this year will be the ever popular Bed Race which will be held at 1 p.m. on the Saturday of the Carnival weekend. David Bishop, who is in charge of the Bed Race, tells me that more entries are urgently needed and if your group would like to enter please phone David at his office at 457-1440. All those entering the race are asked to show up at least a half hour before the race begins.

Carnival Chairman Paul Wilson would like everyone to know that now is the time to start to go to work on the ice sculptures. This is an important

part of the Carnival so let's hope that everyone will make an effort to go to work on ice sculptures. It's really a lot of fun so why not be part of it.

Snowmobile racing will also be a big highlight of this year's Carnival and they will be held through the cooperation of the Kinsmen Club of Haliburton. More on this later.

Now is the time for all of the merchants to start to decorate their store windows. By so doing it gets everyone thinking about the Carnival.

The Winter Carnival parade is always an event that brings the people out and everyone loves a parade. The success of this parade will depend on you. Possibly you have never had an entry in the parade so why not make it a point now to start thinking about putting one in this year. Allan Bagg and Gerry Dawson will be in charge of this year's parade and they urge you to cooperate by entering a float.

Sponsoring a Carnival of this size takes a lot of money and the Rotary Club have been canvassing the local business people for donations. If you have not been contacted please give your contribution to any one of the Rotary Club members. It will certainly be appreciated.

Keep watching this column each week right up until Carnival time for more news on the various attractions and events that are coming up for this year's Haliburton Rotary Winter Carnival.

Snowdon submits brief on rail line

Snowdon Township council has submitted a brief to the Railway Transport Committee of the Canada Transport Commission protesting the proposed closing of the railway line between Haliburton and Lindsay.

The closing has been applied for because Canada National Railways, owners of the line, have deemed it unprofitable and in poor repair. The Municipality of Dysart et al has also submitted a brief expressing opposition to the closing.

Snowdon council's brief notes that the township was not formally told of CN's application for closure, even though some 20 miles of the line pass through Snowdon Township boundaries.

It also says the \$75,000 figure CN quotes for repairs

to the line may be unrealistic, since an engineers report on the matter has not been made available to the public and councils.

A third point in the Snowdon brief is that closing the line could prove detrimental to efforts underway to attract light industry to the county.

Council also feels the line may be of use in the future as energy costs rise, making a return to rail transportation for both industry and tourism a real possibility.

Final point in the Snowdon brief is that the line should be left in place even if CN is given permission to close it, and that the right-of-way should be made available for recreational use.

In other business at their January meeting, council approved increases in remuneration for township officials.

Councillors will receive \$900 per year, up from the \$25 a meeting or approximately \$500 a year they had been receiving since 1973.

Deputy reeves will receive \$1000, up from the previous rate, which was the same as that of regular councillors, while the reeve will receive \$1100, up from the previous approximately \$700 per year.

Road Voucher #12 in the amount of \$5,018.76 for the month of December, 1978 was approved for payment.

Deputy Reeve J. Francis declared a conflict of interest in the road accounts.

Council approved plans submitted by the Ministry of Transportation and Communications on December 11, 1978 relative to Highway 503 and withdrew a previous

objection to the road allowance between lots 19 and 20, concession 2.

The Ministry of Transportation and Communications will be petitioned for final subsidy payment under the provisions of the Public Transportation and Highway Improvement Act on Expenditures made in 1978, council decided.

It was also decided that if a Supplementary Subsidy is available in 1979, the east abutment will be replaced and the west abutment will be stabilized on the bridge on lot 14, concession 9.

Councillor R. Stewart was given permission to attend the seminar for new members of council at Orillia, January 19 and 20 with the registra-

tion fee of \$35.00 and expenses up to a maximum of \$50.00 paid by the township.

Land Severance Applications, numbers H384/78 and H389/78 were approved.

General accounts in the amount of \$23,231.82 and Welfare in the amount of \$272.90 for the month of December, 1978 were approved for payment.

Council met again on January 18 to deal with the unfinished business from the January 10 meeting.

Land Severance Application #H376/78 was approved.

The Ministry of Natural Resources will be contacted to enquire about the possibility of burning lots 19 and 20, concession 8 and lots 21 and 22, concession 9 in order to further blueberry, regenera-

tion, council decided.

The Township of Glamorgan will be contacted to enquire if it is willing to enter a cost sharing agreement for the waste disposal sites on Highway 519 and on the Gelert/Irondale Road.

Municipal Planning Consultants will be requested to forward a recommendation to deal with the objection of Ontario Hydro to section 3 (19) of Bylaw 3/78.

A Supplementary Subsidy in the amount of \$36,000.00 for bridge maintenance work for the year 1979 will be requested from the Ministry of Transportation and Communications pursuant to the Public Transportation and Highways Improvement Act, council decided.

Heavy wet snow has collapsed roofs on cottages in a number of areas, and Monday it took its toll on a gambrell roofed barn on the farm of Gordon Cruikshank near Haliburton village. The Ministry of Natural Resources has issued a snow load warning for the Haliburton Highlands and other areas in Ontario.

Snow, slush, contribute to crashes

from page 1

which was northbound plowing snow across the highway. Damage to the Davidson vehicle was estimated at \$1,200. Damage to Little's dump truck was estimated at \$150.

In the second incident, the wing plow on a Monmouth Township dump truck struck a parked pickup truck, causing an estimated \$1,000 damage to the pickup.

Owner of the damaged pickup truck is Norma Fenney of Wilberforce.

Damage was estimated at \$2,500 in a collision between two vehicles which were attempting to pass a third last Sunday.

Minden OPP say a car driven by Brian Barnhart, 19 of RR 2 Minden was southbound on the Northshore Road when it collided with a van driven by Brian Spenser, 32, of Ajax.

Both vehicles were attempting to pass a parked and unattended pickup truck owned by Stanley Asham of RR 2, Haliburton.

Snowmobilers

from page 1

to hospital in Huntsville. Damage to his snowmobile was estimated at \$500.

Peter Long, of Streetsville, Ontario, who parked the trailer, was charged with interfering with traffic.

The accident was investigated by Police Constable Barry Connelly.

HELP US Celebrate MR. FOGG'S FIFTH!

Damage to the Barnhart vehicle was estimated at \$1,500 and at \$1,000 to the Spenser vehicle.

Charges are pending as a result of the collision.

Damage was estimated at \$1,300 when two cars collided on highway 35 north of Minden, Sunday afternoon.

Brian D. Watts, 21 of Scarborough was southbound and attempting to pass a car driven by Richard M. Gardiner, 25, of Oshawa, when Watts lost control in some slush and struck guideposts on the east shoulder of the road.

The Watts vehicle came back onto the road in front of the Gardiner vehicle, which

collided with it.

Damage to Watts vehicle was estimated at \$1,000. Damage to the Gardiner vehicle was estimated at \$300.

Two cars collided head-on on Sir Sam's Road Saturday afternoon, resulting in \$1,200 damage.

Police say David E. Jubb, 35 of Willowdale was eastbound on Sir Sam's Road, when his vehicle collided with a westbound vehicle driven by Jeffrey Stanley, 17, of Toronto, while the two were rounding a curve.

Damage to the Jubb vehicle was estimated at \$400, and at \$800 to the Stanley vehicle.

Deers herds still threatened

from page 1

for the hard pressed herds. Local Ministry employees have put grain in one of the yards, but Atkinson said Monday that the deer had not touched the feed at last report.

A planned work day by members of the south central Ontario Big Game Association in the yard between Haliburton and Percy Lake Saturday was "disappointing" according to Atkinson.

Only six volunteers turned up.

The Ministry is also having trouble locating some of the herds in Hindon Township, according to Atkinson, and an airplane will be used in the search later this week.

With at least ten weeks of winter left, "there is still going to be problems and it could still be a bad year for venison," according to Atkinson.

Livestock producers consider farmers market for county

The Haliburton County Livestock Producers Association has established a committee to investigate the feasibility of supporting the operation of a County Farmers' Market. Chairman Bill Moore is expected to report his committee's findings to the Executive on February 15.

Other committees to investigate several areas of members' interests, and to report how they may be included in the coming year of association programs and projects were also formed at the group's first executive meeting, January 22.

Dwayne Wruth heads a group looking at alternative methods of agriculture that include such interests as practical horse farming, non chemical fertilizing, the generation and use of compost, and other related topics.

Dr. Bill VanderWeken is looking at ways the Associa-

tion Newsletter may be expanded to carry more technical information to the membership in the form of guest editorials and discussions.

Bud Kirchner's committee has been directed to report on possible amendments to the Association's Constitution that would allow coverage of the members' wide range of interests in the county's agricultural scene.

Bill Moore will outline ways to implement the coming year's test plots in order to gain useful information for member farmers about various crop types that may be of value to them.

Mary Jane Irwin leads a committee that hopes to fine tune the 4-H Club may be expanded both in terms of projects and membership. Under investigation are such programs as 'homemakers projects', and a club for children too young for the existing 4-H membership. Bud Kirchner will also report a committee's suggestions

for the 'field liming' program this year. This program was started in 1978 and has proven of value to member farmers wishing to modify the acidity of their soil to the benefit of crop growth.

The first general meeting will be held on Tuesday, February 6, at 8:00 p.m., in Sir Sandford Fleming School of Fine Arts, formerly the Lakeview School. County Agricultural Representative Carmen Hamilton will speak on 'Soil Chemistry'. The discussion is intended to touch on such areas as the soil types found in the county, understanding terms such as loam, gravel, clay, etc., outlining of soil testing and analysis services available to county residents, information that relates crop types to soil characteristics, etc. The topic will be of immediate benefit to area farmers planning their 1979 season, according to the Association.

Non members are also invited to attend.

"Your number please" to disappear for Carnarvon

The familiar sound of an operator asking for "your number please" will be a thing of the past for Carnarvon residents beginning February 4.

On that date, Bell Canada customers with individual or two party lines in the Carnarvon "489" exchange will no longer have to give their number to the operator when they make their own long distance calls. New equipment will automatically register the caller's number for

billing purposes, which will speed up direct distance dialing, according to Bill Stephenson, local Bell manager.

Rural customers on multi-party lines will continue to be served by Operator Number Identification (ONI).

Total cost of the conversion, which included increasing the capacity of the Carnarvon switching centre by 500 telephones, was \$138,000.

The Carnarvon exchange presently has about 880 main telephones.

WOMEN AND INCOME TAX WORKSHOP

Would you like to know more about how a family or a single woman can make tax savings? Maybe this is the year to learn. It's your money.

Topics include:
Registered Retirement Savings Plans
Registered Home Ownership Plans
Annuities
Taxable and Non-taxable income
Allowable tax deductions
Ontario tax credits
Work through a sample tax return

Instructor: Mr. David Suckling, Certified Administrative Manager. Mr. Suckling, former executive officer for the Treasurer of Ontario, currently freelances in accounting from his home in Cobocok.

Fee: \$9.00 including all materials.
Time: 9:30 - 12:30, 1:30 - 3:30, Saturday, February 17, 1979.

Location: Lakeview Centre, Haliburton.

For further information or to register, telephone Sir Sandford Fleming College 457-1680 or mail registration to Sir Sandford Fleming, Box 339, Haliburton, Ontario.

There is also time to register for the following courses:

- The Art of Chinese Cooking
- Minden, Wednesday evenings, 6 weeks.
- Assertiveness Training for Women
- Haliburton, Thursday evenings, 8 weeks.
- Personal Development for Women
- Minden, Monday afternoons, 6 weeks.
- Evening Discussion Series
- Minden, Tuesday evenings, 6 weeks.

Minden Winter Carnival

A weekend of fun,
frolic and faces

Warm weather forced the cancellation of ice racing and a number of other activities at last weekend's Minden Kinsmen Winter Carnival, but there was still plenty of activity to draw crowds throughout the weekend.

Kicking off the carnival was the Queen contest at the arena Friday evening. Judges Donna Monk and Mike Legge had their work cut out for them, as more than a dozen girls vied for the title and prizes that went to the

winners.

Christine Kinsman was the judges' choice for senior Queen, while Marie Madill was selected senior Princess. Junior Queen was Debbie Ingram with junior Princess honours going to Dawn Elliott. Both Queens won \$100 and prizes donated by local businesses, Princesses received \$50 and prizes.

Last year's Queen, Kelly Beanie was on hand to crown Christine Kinsman, and the four winners received flowers

Photographs by
Len Pizzev
and **Dave Robb**

presented by members of the Minden Figure Skating Club.

Figure skaters took to the ice for a display of their skills following the contest, and then the arena was given over to the first games of a broom-ball tournament that continued throughout the weekend.

Port Perry were the overall winners of the tournament and the consolation championship went to the team from Otonabee Inn.

Minden Novice were the winners of the Novice Hockey tournament that went throughout the day Saturday. They defeated Sunderland 3-2 in overtime to take championship honours.

This year's parade featured some excellent entries in a number of categories.

First prize went to Archie Stouffer School, second prize to Silver Birchess resort, and third prize to the Canadian Imperial Bank of Commerce.

Action switched to the arena and fair grounds following the parade, with a number of outdoor events taking place. Cross country ski races which had been planned were cancelled due to poor snow conditions, but tricycle racers were undeterred, and all the entrants got a prize for their efforts.

Winner of the log sawing contest, in a time of 21

seconds was the team of Sisson and Graham. Second, in 28 seconds, was the team of Sullivan and Martin.

In the tug-of-war the Denny Lake team outpulled their opponents in short order.

In the pole climbing event, the team headed by Borkowski rang the bell in a mere 13 seconds for the victory. Second place went to the Pud-prize team with a time of 20 seconds.

In the fish derby held Sunday, Lyn Forsyth of Minden brought in one weighing over 12 pounds to take the prize.

Snowmobile drags went ahead on less than ideal snow, with winners declared in a number of categories. In the open class it was John Henry of Fenelon Falls turning in the fastest time.

In the 300 c.c. fan cooled category, Rick Lechtz of Minden was the winner.

In 340 fan cooled, it was Murray Taylor of Minden all the way.

In 300 free air, Jim Coldman of Minden was the winner, while 440 free air honours went to John Henry.

Charlie Herd of Eagle Lake took the 300 modified category, and Greg Shaw of Hamilton was the 340 modified winner.

Echo Editorials

Making a tough decision

Figures presented to the Haliburton County Board of Education this week indicate that school enrolment could fall by as much as 25 percent across the county in the next five years. While the figures are merely an educated guess and could be altered by economic improvement or an increase in the county's population, declining enrolment is a province wide trend, and Haliburton County will not escape its effect.

Teaching jobs will have to be eliminated as the number of students falls. Inevitably, that loss of jobs will hurt the county's economy, as well as the individuals who are affected.

While there is little the taxpayer can do to change the fact of declining enrolment, the loss of jobs presents an interesting dilemma: Whose job should be lost and whose should be retained?

Teachers across the province have negotiated redundancy clauses in the face of declining enrolment, and those clauses have said that other things being equal, teachers with the least seniority should be the first let go. While there is some justification to that approach (a teacher with more experience, may indeed be a better teacher), it leaves out the factor of individual ability.

Outside the civil service, an individual's job is secured less by a contract than by his or her ability, education and effort. Yet in the civil service there has been a growing tendency toward job security based on other factors, such as seniority and union strength.

While there is no doubt that seniority should be a factor in job continuance, it should not be the sole criteria by which teacher firings in the light of declining enrolment are made.

Many universities have gone to an evaluation system that takes into account the impressions of students and peers when decisions on contract renewal for professors are made. Academic excellence and upgrading is also a factor in such decisions. High school teachers should be subject to the same constraints.

There is, of course, a danger that, given a free hand in dismissal, school boards would retain the newest, and hence lowest paid teachers, since that would sit well with some taxpayers. But those interested in a quality educational system are not likely to support such a simplistic approach.

A system should be worked out whereby teacher competence is a significant factor in dismissals based on declining enrolment.

Students and taxpayers deserve the best possible education system for the money that is spent.

Bring the truth to light

Last week, rumours that the Ontario Provincial Police would use liquor checks and radar traps to harass contestants in a cross country snowmobile race being organized by the Haliburton Kinsmen Club, forced a temporary cancellation of the race. Fortunately, Kinsmen members, an OPP representative and Dysart reeve Murray Fearney sat down the day after the cancellation to discuss the rumours. When the truth was brought to light, that the OPP had no intention of jeopardizing the race, but had legitimate concerns about the safety of citizens and the legal responsibilities of both the club and the municipality, rumours were dispelled. With a single route change agreed on by all concerned, a race that is sure to be one of the highlights of the upcoming carnival weekend was saved.

It's an unfortunate fact, however, that things don't always work out that way. Many rumours that are without foundation in fact, or that at the very least represent an extreme distortion of the grain of truth that spawned them, are never dispelled. And the impression those rumours leave can linger.

It's a situation that harms the spirit of cooperation and community that ought to thrive in small, personal places like the villages and municipalities of Haliburton County.

The lesson to be learned from the problem that developed last week over the snowmobile race, is that rumours deserve to be treated with a healthy skepticism, and they deserve to be dispelled by an airing of the truth.

Rumours are a threat to harmony between individuals, groups and communities. They are kept alive by those who repeat them, and they are stopped by those who look for the truth.

It is the responsibility of every citizen to see that rumours don't ruin people, groups and events.

"Serving the Highlands for over 95 years"

The Haliburton County Echo is an independent newspaper serving Haliburton and Victoria Counties for over 95 years. Established in 1882 as The Minden Echo and Haliburton Recorder, and amalgamated with The Minden Recorder in 1977. The Haliburton County Echo is published by Algonquin Graphics Limited in Haliburton, Ontario, Box 360, K0M 1S0. Phone 457-1037.

Advertising is accepted on the condition that, in the event of a typographical error, the portion of the advertising space occupied by the erroneous item, together with a reasonable allowance for signature, will not be charged for, but the balance of the advertisement will be paid at the applicable rate.

In the event of a typographical error advertising goods or services at the wrong price, goods or services may not be sold. Advertising is merely an offer to sell and may be withdrawn at any time. The Publisher reserves the right to restrict all ads as to their classifications and to edit or reject any copy.

The storm's beauty

Letters to the Editor

Editor's note: The following letters are in response to an article which appeared on the front page of the Echo, January 17. The article was a report of a presentation made to Anson, Hindon and Minden council by Sonya Holliday-Rhodes, chairman of a locally based anti-pollution committee. In her speech to council, Mrs. Holliday-Rhodes expressed the view that sodium fluoride "is a deadly poison", and asked that council investigate the matter before making any decisions about the use of fluoride in the Minden water supply system. Since the report of Mrs. Holliday-Rhodes speech appeared, area doctors, dentists, pharmacists and the local health unit have received enquiries from citizens concerned about Mrs. Holliday-Rhodes' claims. The letters below present the view of area dentists and a number of doctors on the use of sodium fluoride.

To the Editor:

I recently read an article in your paper regarding pollution. The part that drew my attention was water fluoridation, fluoride a constituent of rat poison, and fluoride a deadly poison.

As a practising dentist, I would like to draw to your attention the fact that water fluoridation, at a level of 1 part per million (P.P.M.) has a beneficial effect to those children aged one to fourteen who consume it. It has been proven to reduce tooth decay by 50 percent or more. If you consider that the most common and widespread disease in the world is tooth decay, the therapeutic useage of fluoridated water can be quite significant. At a level of 1 p.p.m. a person would have to drink several hundred gallons of treated water at one sitting to obtain a lethal dose. The water alone would probably kill you first.

My suspicion of fluoride in rat poison was rewarded when I checked a package at a local hardware store. There was only one brand, called Warfarin, which is an anticoagulant (promotes bleeding), and presumably when the rat eats it, he will eventually bleed to death. Certainly, there must be other hardware stores, and other rat poisons but I doubt whether the lethal chemical is fluoride.

However, fluoride can be a poison, as can aspirin, alcohol, mercury, chlorine, etc. All poisons can be deadly if they are consumed in great quantities. Fluoride can produce chronic toxicity over years of consumption when the water supply contains 10 p.p.m. or more. No water supply in Haliburton County should contain that much. The highest levels should be around 1 p.p.m. This is a fact that can be confirmed at the local health unit. Any water supply can be tested by the health unit should any reader be interested in fluoride content.

Most fluorides now dispensed are in liquid form because of the ease of dispensing for a parent. All liquid forms of fluoride now dispensed do not contain enough fluoride to be lethal if a child should consume an entire bottle. These solutions should, as well as others, be kept out of the reach of children. Always read the print on all solutions.

In short, fluoride when used in the proper manner is not a poison, causes no birth defects, causes no genetic damage, causes no allergies, does not cause cancer, nor contributes to heart disease.

Last week's information presented in the paper

on fluoride is outdated and erroneous, and the group who presented the information should get their facts into perspective, and try to do something more constructive and beneficial with their time in the community.

Yours truly,
John A. Purc,
Bachelor of Science,
Doctor of Dental Surgery,
Minden, Ontario.

P.S.

A most timely article on fluoridation has been printed in Consumer Reports July 1978, August 1978.

To the Editor:

With regard to a recent article in the issue of the Echo on January 17 concerning "fluoridation" of water supplies with the "deadly poison - sodium fluoride", we would like to establish some accurate, pertinent facts and show that allegations such as the above are based on ignorant distortions.

Like iron, zinc, and several other minerals, fluorine (in the form of fluoride) is classified by the Natural Academy of Sciences as an essential trace element in human nutrition. And like many substances essential to life or good health - iron, vitamins A and D, oxygen and even water itself - fluoride can be toxic in excessive quantities. At high concentrations fluoride has been used as a poison for insects and rodents. However, at the level in fluoridated water, one part per million (ppm) - You'd have to drink at least several hundred gallons at one sitting to get a lethal dose. The water alone would kill you first.

In its various forms, fluoride is found in practically all soils, plants, and animals, as well as in human blood, bones, and teeth. It's also present in at least trace amounts in all natural water supplies. The concentration in water varies widely, however. In the U.S. natural fluoride levels range from a high of about 8 parts per million (ppm) in the Southwest to 0.05 ppm in the Northeast, (Areas in India have in excess of 15 ppm).

Fluoridation is simply, an adjustment of the natural fluoride content to about 1 ppm - a level of intake that strengthens tooth enamel and sharply reduces dental decay, especially in those exposed to fluoridated water from early childhood. For those not exposed to this optimum level of fluoridation of water supplies, fluoride supplements such as tablets, liquids, vitamin-fluoride combinations, mouth rinses, etc. are available as an effective alternative.

Since the early days of the discovery of the effectiveness of fluoride in reducing dental decay (some 50 years ago) literally thousands of scientific studies have examined the effectiveness and safety of fluoride. After numerous studies the World Health Organization noted: "The only sign of physiological or pathological change in life-long users of optimally fluoridated water supplies...is that they suffer less from tooth decay."

Yours sincerely,
John Postlethwaite, Dental Surgeon,
Blair Pierce, M.D.,
Bob Heyes, M.D.,
Karl Hartwick, M.D.,
Harry E. Good, M.D.

Feir Play

by Creighton Feir

The 1979 Minden Kinsmen Winter Carnival is now history and as usual the Kinsmen Club along with the help of other citizens and organizations gave the people who attended a weekend of fun and activities. In looking over the Winter Carnival programme of events we were very interested in the write-up on the Kinsmen Club of Minden. Charter night for this youngest club in Minden was May 10, 1956. Sponsored by the Kinsmen Club of Lindsay, the men who were instrumental in this formation are Al Wetmore and Wes Ellis from Lindsay and Deac Jackson, Bob Harvey Jr., Roy Windover and Harry Earle from Minden. However, that is all behind them now, and the record these young men have established speaks highly for each of them. At the same time it has been illustrated very clearly how much good can be done, collectively, and how limitless is the scope when it comes to serving our fellow man. In the past, the Kinsmen Club of Minden has completed such projects as the Minden Ambulance Service, the ball park, Winter Carnival and the current project, the Minden Kinsmen Participark, coupled with sports car races on ice. In the past year the Association of Kinsmen Clubs provided over \$50 million in service work through their 600 Kinsmen Clubs from coast to coast. Keep up the good work boys.

We have heard several complaints recently that the snow should be removed from Wallings Bridge which is located near the High School in Haliburton. The build-up of snow in this area has caused considerable problems and makes driving very hazardous for the motorists who are coming out from the road near the Northern Ways Bus Depot onto the highway near the bridge. Let's hope that this be done before we are faced with a serious accident in this location.

I would doubt that anyone who is in the store business and has to take in returnable pop bottles isn't just a little disturbed these days. The local merchants I have been talking with tell me that the bottles are nothing but a pain in the neck, but something that apparently they will have to live with. They cause the problem of storage space and turmoil at the counter when they are busy. One of the girls who works in one of the supermarkets in Haliburton came up with a wonderful suggestion when I was talking with her recently. She suggested that the answer to this problem would be a bottle depot where the empty pop bottles could be taken and people would receive their refunds. This could be the answer to this problem which has turned into a major headache for those who are involved with them at the present time.

Some local citizens have brought it to our attention that we have many fine facilities in the Village of Haliburton, but they can't understand why we are still without a community swimming pool. We checked into the matter and one of the members of the Rotary Club of Haliburton, told us that they have discussed the possibility of building this pool, as one of their projects in the future, but that we will have to be patient. A project such as this will be a big undertaking and one that will cost a great deal of money. This would mean that the community as a whole are going to have to get involved, and a great deal of money is going to have to be raised. Let's not just leave it up to the Rotary Club, we think that it's going to take the cooperation of such service clubs as the Kinsmen, Lions, Royal Canadian Legion and the all-out effort of the community as a whole.

There are very few days left before one of the biggest attractions of the winter season. This Sunday, February 4 is the day for Whipper Watson's Snowarama for Timmy. This annual snowmobile event billed as the million dollar ride is a 100 mile rally and on this day snowmobilers in many villages and towns in Ontario will be taking part. Haliburton County will be no exception as snowmobilers from this area will also be playing a big part in this project to help raise money for a most worthy cause with proceeds going to the Ontario Society for Crippled Children. We sincerely hope that everyone will get behind this very worthy cause. Let's not forget that the Minden and Haliburton Rotary Club's have raised close to \$60,000 during the last four years for Snowarama. The starting points are as follows: In Minden at the Minden Arena and Community Centre and in Haliburton from the high school. Starting times in both communities are from 7:30 a.m. to 10 a.m. A special feature, courtesy of Air Canada, will see all riders eligible for a draw for two tickets to any Air Canada destination.

We have often heard it said that since expansion, the National Hockey League with its 17 teams is playing a watered down version of hockey compared to the days when it was a six team league. Some of the critics will say that there doesn't seem to be any hope for the weaker teams to ever reach the top. Well, let's go back to the days when there were six teams. Two of the top teams were strong with talent, the middle two were fair while the two bottom teams were always very weak. So what really has changed? I have to admit that since the red line has come into the game, we don't see as much smooth passing and we see more of the shoot it in and chase after it style of play. As a kid I can always remember the days when Wally Stanowski played defence for the Toronto Maple Leafs. He was a flashing and dashing defenceman who loved to make those end to end rushes. On one night in particular, I can remember being at a game in Maple Leaf Gardens and everytime that Stanowski would wind up behind the Leaf net for a rush down the ice every spectator at the game would rise from their seats to watch this flashy player come down the ice. Yes, there may be many poor games played in the N.H.L. today but the great hockey stars are still playing and there are still plenty of good games with plenty of excitement and action. Hockey is still the fastest game in the world.

From the Chamber

by Bob Stinson

Weather hurts Minden Carnival

For the second year in a row the weatherman played a very unkind role in the Minden Winter Carnival. The feature attraction of the carnival is now the car races on the giant oval track that members of the Kinsmen have painstakingly created throughout the winter. With the unusually mild weather making the track unusable this popular event had to be cancelled along with the snowmobile drag races. Fortunately there is more racing planned on this track throughout the balance of the winter so the considerable efforts in preparing it have not gone to waste. It is however very discouraging to have the considerable efforts in the balance of the carnival nullified to a considerable extent by the weather.

Conlin's Ontario, a C.B.C. Television Network Show visited the Carnival and the show on Minden will be aired on Tuesday, February 6th on Channel 5 in Toronto. Unfortunately Channel 3 does not carry this show, so we suggest you visit someone with cable or a tower that gets Toronto reception on that date.

Haliburton Hockey Tournament a Success

One advantage to holding hockey tournaments is that the weather has very little effect on their success. The Alcide Carpentier Pee Wee Memorial Tournament held in Haliburton this weekend drew over 300 fans and spectators into local accommodation facilities as well as the teams themselves. For the first time since these three day tournaments were begun both Minden and Haliburton reached the B Championship finals. Minden went on to win the B Championship which qualified them to go into the Grand Championship game against the A Champions, Hillcrest Summits from the Toronto area. The spectacle of those 11-12 year olds from Minden, putting out 150 percent in the Grand Championship game, broke down the traditional Haliburton/Minden rivalry and all of Haliburton was cheering for them. With an amazing display of determination the Minden team after four periods of hockey followed by six player shoot off finally brought the Grand Championship home to Haliburton for the first time. Congratulations.

Snowmobilers Weekend

The weatherman has also been very unkind this year to the snowmobilers. Club members have been working diligently to attempt to provide good trails in spite of the conditions but much of their effort has been to no avail. This week their efforts will be concentrated on the Snowarama and Kashagawigamog trail areas since that's where the main events are planned for this weekend. The Kashagawigamog Snowmobile Rally featuring a \$100.00 first prize leaves from Haliburton Marine Saturday morning. We stress that this is not a race but a rally, where all types of drivers and machines have an equal opportunity at winning prizes.

Snowarama, as in the past, will leave from both Minden and Haliburton on the 100 km circular dryland trail that was established last year. This year the direction of travel will be in reverse to that of previous years. We urge all snowmobilers to pick up a pledge sheet either from a Rotary member of here at the Chamber of Commerce, and get out and ride with Whipper Watson for Crippled Children. Remember that 50 percent of the money pledged remains in the area for crippled children's work right here.

Building Trades Division Formed

Last week a number of our members in the building trades met to discuss what could be done to promote their particular industry in our county. It was agreed that with less development going on in the county now than in the past a concerted effort must be made to see that local tradesmen and suppliers get a larger share of future development taking place. Prefabs in particular are seen as a major outside competitive force to be reconquered with.

It was decided that a directory of tradesmen and suppliers should be compiled by the Chamber with advertising space available in it to members. This booklet will be distributed widely at the Sportsmen show in Toronto, the Home and Cottage Show here in Haliburton, Real Estate Offices, Municipal Offices, and building supply centres. The booklet will also be used in mailing to all people who have newly acquired property within the county.

An attempt will be made to contact all those in the building trades industry who are not already members of the Chamber, but don't wait to hear from us if you are now in this business and think that this new emphasis on the building industry may help you. Call the Chamber today.

Newsletter

By now all members will have received a newsletter asking for their input for government submissions. The form on which submissions are to be provided was duplicated from one used last year and shows a deadline date of April 3, 1978. The actual deadline is February 15, 1979 for your submission so please give it your immediate attention.

Pic of the Past

The man in the photo in this week's Pic of the Past is Robert J. McKnight of Allsaw taken in 1921. He was 88 years of age when he died on December 15, 1921. McKnight built the Allsaw Presbyterian Church and was founder, Lay Pastor and Sunday School Superintendent of the church. He and his family moved to Allsaw in 1868 and built the church sometime later. If another minister was unable to attend, he took the service, assisted by his sister Mrs. Wm. (Martha) Pettigrew. Both were musically inclined. She played the organ and they both sang and conducted the services often. A pioneer, McKnight was also the Grand Master of Allsaw Lodge for years. The present Allsaw Pentecostal Mission is located on property he owned (500 acres). Our thanks to Mrs. Goldie Phillips of Gilmour P.O. Ontario for submitting this photo of her grandfather.

Pensioners must apply for income supplement

Recipients of Guaranteed Income Supplement in Ontario are being advised to re-apply for the supplement immediately in order to continue receiving payments for another year. Health and Welfare officials in Toronto advised this week.

Guaranteed Income Supplement is an income tested assistance program for old age pensioners who have little or no income outside of Old Age Security.

W. A. Wright, Regional

Director, Income Security, said annual re-application for the G.I.S. is essential as the income levels of many pensioners change fairly regularly.

"Since income dictates the amount of supplement, it is essential that we have up-to-date figures as quickly as possible," he said.

The regional director pointed out that Ontario regional office has mailed some 350,000 re-applications to existing recipients. "Those

who fail to re-apply by March 31 deadline may find payments have been discontinued," he said.

Pensioners requiring assistance with filling out the re-application should contact the nearest Canada Pension Plan Office, or the Regional office in Toronto.

Re-applications should be completed as soon as received and returned to Income Security, Health and Welfare Canada, P.O. Box 6000, Station Q, Toronto, Ontario.

Report from Queens Park

by MPP John Eakins

This year, 1979, marks the 20th anniversary of the United Nations' Declaration of the Rights of the Child, and is to be celebrated as the International Year of the Child.

Here in Canada, the federal government has appointed a Commission, with a grant budget of \$1 million, which has established criteria for the allocation of grants to assist in the development of projects for this special year. Three types of projects are envisaged: projects with the direct involvement of children, projects for children and projects about children.

The Commission has announced that, although no capital grants would be made available, operating grants would be given to community-based non-profit groups. Individuals would be able to receive grants if affiliated with a community group or group of people having a common interest. The Commission is prepared to fund a project up to a ceiling of \$1,500 for individuals, and of \$5,000 for a community group. Deadlines were announced for the receipt of grant applications: December 31, 1978 (up to 15 per cent of the total \$1 million to be allocated at that time); February 15th and March 30, 1979.

Other services will also be supplied by the Commission. The objective is to encourage "the widespread involvement of individuals, communi-

ties and organizations in activities designed to advance the rights, interests and well-being of children in the context of their families and society."

Special emphasis is to be given to legislation on the rights of children, both at the federal and provincial level. In Ottawa, a Private Member's Bill proposes a Bill of Rights for Children. This legislation has gone to the standing committee on justice and legal affairs. It is intended also that the Criminal Code should be amended to broaden the definition of obscenity, to protect children against parental kidnapping and abuse, and to require that husbands and wives testify against one another in cases where a child under 14 is the victim of assault. Quebec is to have a new Youth Protection Law, intended to reduce juvenile delinquency by reforming adults' conception of and approach toward children in trouble.

The emphasis to be given to I.Y.C. varies considerably from province to province. Clearly financial considerations have been an important factor. Alberta and Saskatchewan have announced plans which involve the expenditure of \$100,000 or more. Most other provinces have not as yet allocated any special funds, and plan simply to give greater emphasis to special legislation or the expansion of existing programs.

Within the next week I expect to have further information regarding plans by the various ministries here at Queen's Park.

Bill Smiley

Just struggled home through about the tenth blizzard of this month. You could see your hand before your face, if you had a large hand and good eyesight.

Found my street more by feel than sight, turned off with a skid, went through the routine of getting into the garage. It's rather like launching a small boat in a large surf. It takes a lot of skill and a fair bit of nerve.

At the entrance to the driveway are the boulders. These are huge gobs of snow thrown up by the snowplow, which then freezes them bigger than a large man's head.

Then there is a flat space, shovelled, about the length of a car. Then, just at the entrance to the garage itself, there is a sort of reef of ice, built up to a foot or so of frozen snow.

You have to hit the driveway, and there is a large maple foot to one side, at about 24 miles an hour. There is a great rending noise from beneath, just like rocks

tearing the bottom out of a boat. But you don't even slow down. With a judicious touch of brakes here and accelerator there, you sashay past the maple, line her up for the middle of the garage, and goose her just a little on the flat patch. There is six inches clearance on each side. All being well, you then ride up over the reef of ice, with another rending noise, this time part of your roof peeling away, slam the brakes at the last minute so that you don't go through the end of the garage, switch off, and sit there wiping your brow.

My wife is a big chicken. She won't even try to put the thing in the driveway, let alone the garage. Maybe that's because she has hit the side of the garage door about six times, both in and coming out.

I enjoy it. I feel like a skipper whose ship is sinking, and who has launched a boat, taken her through the surf, over the rocks, through the reef, and beached her on golden sand.

But inevitably, on such occasions, my thoughts turn to the poor devils, our pioneer ancestors, who had to cope with the same weather and snow conditions, with a pinance of what we have to work with.

When I've shut off my engine, feeling a bit like Captain Bligh on one of his

good days, all I have to do is walk 40 yards to the house. Inside there is warmth from an oil furnace, light, an electric stove to cook dinner, a colored television to take me to lotus-land.

I can huddle in the cowardly safety of my modern home and defy the elements. Let'er snow, let'er blow.

Minden Monarchs are champions of the Alcide Carpentier tourney

A determined and hard-working Minden Monarchs Pee Wee hockey team scored an unanswered goal in a shootout that capped four periods of play Sunday afternoon to take home grand championship honours in the 5th annual Alcide Carpentier Memorial hockey tournament.

The Minden win, over a well coached Hillcrest team, was the climax of a tournament that pitted 16 teams from Ontario and New York against each other in a total of 22 games.

More than 300 fans were on hand Sunday afternoon to watch the final games, which saw Stouffville take Oak Ridge

and Willowdale beat Huntsville 3 - 1 in the day's fourth and final match.

Action resumed Saturday morning at 9 a.m. when Hillcrest took on Royal York and came out on the winning side of a 3 - 0 score.

Finchurst met Orillia C.Y.O. at 10 a.m. Saturday, and came on strongly, defeating the Orillia team 8 - 1. Huntsville beat Saltfleet 5 - 1 in Saturday's third game while Minden took on Cooksville at noon in the last of the first round games.

The Minden team got off to a quick start in the first period, with Doug Schell scoring at 3:14 assisted by Jeff Stamp. Both teams trad-

Haliburton met Willowdale at 4 p.m. and came up with an exciting 2 - 0 win.

Haliburton's first goal of the game came at the 6:26 mark of the first period, when Andrew Bishop scored, assisted by Vince Duchene.

Neither team could put one in for the rest of the period, and the second period was also scoreless.

Haliburton got the insurance marker at 7:29 of the third period, this time off the stick of Kevin Warburton with an assist from Greg Newell.

The Haliburton team appeared to be disorganized throughout the period and was unable to connect with

Haliburton met Minden for the "B" championship

In the best game of the tournament for local fans, Haliburton met Minden at 12:30 to decide the "B" championship.

Minden came out skating and passing strongly, and put their first goal in the Haliburton net at the 2:02 mark off the stick of Kevin Warburton with an assist from Greg Newell.

The Haliburton team appeared to be disorganized throughout the period and was unable to connect with

With the teams back at full strength, Haliburton's Charles Teljeur put his team on the scoreboard for the first time in the game. Teljeur's goal came at 3:25 with assists from Bernie Upton and Barry Boice.

Minden continued to dominate play throughout the period however, on the strength of good passing and effective skating. With just 45 seconds left to go in the period, Jeff Howe got Minden's third with assists from Scott Hamilton and Jeff Stamp.

Neither team scored in the third period and the game ended 3 - 1 in Minden's favour.

The win gave Minden the "B" championship and moved them into the grand championship game against Hillcrest, who took "A" championship honours by beating Amhurst 2 - 1 in one of the best games of the tournament.

Stouffville 8 Oak Ridges 4

The grand consolation final that saw Stouffville meet Oak Ridges was an action packed affair, with plenty of scoring on both sides, but by the end of the third period, Stouffville had amassed an 8 - 4 lead to take consolation honours.

Minden 4, Hillcrest 3

Attendance was good throughout the tournament, but the stands were packed by 4:15 Sunday when Minden and Hillcrest took to the ice to decide who would take home the overall winner's laurels.

Both teams skated and passed well in a game that was dominated by solid defensive play.

Hillcrest moved ahead of Minden with just five seconds remaining in the first period. Though both teams traded rushes in the second period, it took Minden until the final seconds of the period to even up the score. Robby McLeod got the tying marker at 9:58 with an assist from Jeff Stamp.

Neither team scored in the third period, and the game went into overtime.

Minden Monarchs; Alcide Carpentier Pee Wee Tournament champions

es 8 - 4 for the consolation championship before Minden and Hillcrest met to decide the overall championship.

Action got underway Friday afternoon with Grand Ravine dominating Oshawa 14 - 0 in the first game.

Haliburton 2 Oak Ridges 1

Haliburton met Oak Ridges in the second game of the tourney, and came up with the win.

The Haliburton team scored two unanswered goals in the first period, with Kelly Mitchell scoring at the 4:03 mark, assisted by Harold Rowbotham and Mike MacNaull, and Mike MacNaull banging one in unassisted at 8:34.

Oak Ridges' only goal of the contest came at the 5:14 mark of the second period.

The win moved Haliburton into contention for the "B" championship.

Amhurst N.Y., took Stouffville 6 - 0 in the third game,

ed rushes for the rest of the period, but were unable to score.

Just eight seconds into the second period, Cooksville tied the game, but Minden took over the lead again at the 1:24 mark on the strength of Doug Schell's second goal of the game.

Cooksville again tied the score with a goal at the 6:12 mark, and the period ended with the teams even.

The only goal of the third period came at the 1:26 mark, when Jeff Stamp scored the winner with assists from Scot Hamilton and Doug Schell.

The win moved Minden into the championship side of the tournament where they were slated to meet Finchurst at 8 p.m.

Stouffville took Oshawa 7 - 1 in the first game of second round action to move into contention for the "A" consolation championship.

Oak Ridges shut out Huntsville 6 - 0 at 2 p.m. to move on to "B" consolation contention.

Amhurst met Grand Ravine at 3 p.m. and got by 1 - 0 to head for "A" championship contention.

overtime to get the winning goal in a 4 - 3 thriller against Cooksville, to head for the "B" consolation game.

"B" Consolation

Final games got underway at 10 a.m. Sunday morning, with Oak Ridges meeting Orillia to decide the "B" consolation championship.

Oak Ridges completely dominated play through three periods, taking Orillia 10 - 3 to move on to the consolation final.

"A" Consolation

The "A" consolation game pitted Stouffville against Saltfleet in a close game that Stouffville won 3 - 1.

passes or to penetrate the Minden defense effectively.

Minden's second goal of the period came at 5:01 on an ice length rush capped by a perfect pass from Kevin Warburton to Scott Yake, who beat Haliburton goalie Steven Dodd cleanly to give Minden a 2 - 0 lead. Also assisting on the goal was Robby McLeod.

Early in the second period Haliburton found themselves with a two man advantage as Jeff Stamp and Kevin Warburton went off to serve two minute penalties. Stamp's for use of an illegal shot and Warburton's for cross checking. Haliburton held the puck in the Minden end, forcing Minden goalie Scott Danilko to come up with some big saves.

HALIBURTON ROTARY WINTER CARNIVAL

County Echo Sports

Huskies lose exhibition game 9-7, then beat Lakefield 5-4 on Sunday

Haliburton Huskies dropped a close exhibition game to Beaverton Junior C Friday night, but in the game that counted they came up with their second big win in a row over league leading Lakefield to gain a solid hold on second place with just two games left in regular season play.

Though Friday night's game against Beaverton meant nothing in the standings, the Huskies put on a good show for the fans and stayed in the game through all but the final minutes of the third period.

Beaverton opened the scoring at 3:54 of the first period, while the Huskies

Dave Brown took advantage of a power play to even the score. Brown's goal came at 4:39 with assists from Ed Roberts and Barry Shaw.

Huskies moved ahead at 9:31 on the strength of a goal from Tim Oram. Assists went to Dave Brown and Ed Roberts.

Beaverton tied the score at two apiece at 11:59, and the teams went into the second period tied.

Beaverton went ahead at 3:55, but the Huskies' Randy Barras evened things up at

4:56 with assists from Steve Davies and Joe Roberts.

Roberts put the Huskies ahead 4-3 at 8:31, assisted by Barry Shaw, and Randy Barras scored his second of the game at 9:19 assisted by Steve Davies and Larry Stinson to make it 5-3 in favour of the Huskies.

Beaverton got their fourth of the game at 19:57 to make it 5-4 at the opening of the third.

Huskies looked like they might pull the game out of the bag after two quick goals

early in the third period moved them ahead of Beaverton 7-4.

Dave Brown got his second of the game at 2:07, assisted by Joe Roberts and Larry Stinson, while Dwight Sisson got his first at 4:53 with assists from Barry Shaw and Tim Oram.

The rest of the period was all Beaverton, although the Huskies worked hard to stay in the game.

The Junior C club scored at 5:43, 9:12, 15:22, 18:46 and at 19:07 to take the Huskies 9-7.

Sunday the Huskies travelled to Lakefield hoping to repeat their win against the league leaders the week before.

The Huskies got off to a quick start when Dave Brown drove one home at 1:49 assisted by Ed Roberts and Tim Bain.

Lakefield evened the score at 10:51 while Andy Salvatori was sitting out a high sticking call.

Huskies Chris Hodgson capitalized on a Lakefield penalty, scoring at 12:24 assisted by Barry Shaw and Tim Oram.

Ed Roberts put the Huskies ahead 3-1 at 15:32 with the teams back at full strength. Assists went to Dave Brown and Tim Bain.

Lakefield scored at 5:44 of the second period to make it 3

-2, but Haliburton moved to a two goal lead again at 17:20 on a score by Tim Oram, assisted by Andy Salvatori and Barry Shaw.

The Huskies took the play to Lakefield in the first minutes of the third period, making it 5-2 at 6:16 on a goal by Joe Roberts with assists from Randy Barras and Kevin O'Hara.

Lakefield came back with two more in the period, at 11:15 and 19:25, but the Huskies went home with a 5-4 win and a solid second place in the standings ahead of Bancroft.

Friday the Huskies will travel to Bobcaygeon for what should be another victory, and Sunday at 2 p.m. they'll take on fourth place Bewdley in Haliburton for the last home game of the regular season.

Haliburton Huskies' Joe Roberts heads for the puck, watched by a Beaverton player during exhibition hockey action at the Dysart arena Friday night. The Huskies lost 9-6, but won an important game against Lakefield Sunday. The Huskies' last home game of the regular season goes this Sunday against Bewdley at 2 p.m.

Haliburton Midget action sees 3-3 tie

On Saturday, January 27, Little Britain visited Haliburton and when the shooting was over the game ended in a 3-3 tie.

Little Britain opened the scoring at the 1:40 mark of the first period when Beddows put in a pass from Sudlow. They went up 2-0 when Kevin Jenkins scored from Drinkwater and Terry Jenkins at 5:36.

Haliburton got on the scoreboard when Doug Tallman cashed in Rob Abbs hard drive from the blueline at 10:25. Brian Lloyd tied the score at 14:07 with an un-

sisted goal.

Little Britain again went one up at 2:44 of the second when Sudlow scored from Beddows and Nottingham. Darren MacInnes from Mike Rae at 9:07 of the second tied the score. There was no scoring in the third period.

Haliburton took eight minor penalties and Little Britain had 12 penalties including a 10 minute misconduct. Final score: Haliburton 3, Little Britain 3.

The Haliburton Midgets finished the regular schedule with an impressive 11 wins, 3 losses and 2 ties.

Along the Trails by Roy Bates

Just a few days left to fill up those pledge sheets for Whipper Watson's Snowarama for Timmy. Remember, this is a very worthwhile cause. Don't be timid about asking folks to sponsor you. And, if you haven't decided yet to make the ride, just remember that you will probably be riding somewhere on that day anyway and here is an opportunity to really help the crippled children of your community. Remember too that the public's acceptance of snowmobilers is helped along greatly by our participation in this, and other fund-raising events for charitable purposes.

Don't let the kids down. Be out there on the trails with your fellow snowmobilers on Sunday, February 4.

The Snowarama route this year will be basically the same as last year, a circular route of interconnecting trails maintained by the Haliburton County Snowmobile Association. Starting points will be at

Minden fairgrounds and the high school at Haliburton. Direction of travel is reversed this time so you will view the breathtaking Haliburton scenery from a new angle. As one quip put it - you'll see the other side of the trees. Minor route changes are planned to reduce the amount of sanded road and street used and to eliminate a couple of road crossings.

The Rotary Clubs of the two communities are hard at work putting the finishing touches on all the pre-ride planning. An event such as this requires a great deal of organizational effort and inter-club cooperation. Check points have to be manned at intervals along the trail to ensure that no riders stray from the trail and get lost or cheat on the mileage by taking unauthorized shortcuts. Food and fuel stops have to be arranged for at two places. Trail patrols must be provided to lend a helping hand to any rider in trouble. And, of course,

everything has to be tied together with a dependable communication network.

The HCSEA's involvement in Snowarama is in two parts. First, all grooming efforts in the week prior to the event must be concentrated on those trails selected for the ride in order that they will be securely packed and smoothed to perfection. This involves three groomer operators, two Bombs and an Alpine. The second, and perhaps the most important part is the encouragement of all club members to participate in the ride and also, to invite the members of neighbouring clubs. The final success of the event depends not on the amount of pre-ride organization so much as it depends on the numbers of riders and how hard they have worked to sign up sponsors. We will be happy with 250 riders averaging \$100 each. If you are with us we'll probably meet that objective.

If you are a snowmobiler, you should be in this Snowarama. If you are not a club member, don't worry. This is one time when you'll be welcomed on club trails with open arms. If, for some good reason you can't take the ride, why not offer to help as a trail patrol or checker?

Whenever a charity event like Snowarama is taking place on public trails there should be some way of closing those trails for a designated

period prior to the event so that the trail surface would not be disturbed during the crucial freeze-in time required after final grooming. Apparently that is not possible, nor in a resort area such as this is it very practical. We can only suggest to people who plan to snowmobile on Saturday, February 3, that they make an effort to respect the Snowarama effort and either ride the other trails available or carefully avoid speeding, spinning, or otherwise tearing up the trail surface. Snowarama routes can be easily identified by the signs erected at every intersection. Please be courteous enough to slow down at least.

OMHA Pee Wees and Bantams start playoffs

Haliburton's OMHA Pee Wees and Bantams move to their home ice at the Dysart arena Friday evening for the second games in the playoff series.

The Pee Wees will face Cannington at 7 p.m. while the Bantams will meet their Cannington counterparts in a game that goes at 8:30 p.m.

Saturday night at 8:30 the Midgets will also take on Cannington in the second game of their playoff series.

Wilberforce to meet Agincourt

Wilberforce Midgets will play a two game exhibition series against a team from Agincourt next weekend, February 10 and 11, at the Monmouth arena.

Saturday's game goes at 2 p.m. and the teams will square off for a second time Sunday at 11 a.m.

Admission is free for the Sunday game.

Curling Club News

by Don Popple

This weekend (February 2, 3, 4) our club hosts the Annual Highland Mixed Bonspiel. This year's convener is Linda Beachli and she reports a full slate of 24 rinks. Action gets underway at 6:00 p.m. Friday. Last year's winners, Mr. and Mrs. Derry Wilford from Nanapanee and Russ and Phyl Woodcock of Haliburton, will be on hand to defend the title.

This past weekend saw two rinks from our club repre-

ented at outside Bonspiels. Bob Collier and his rink of Jean Collier, Gerry McKelvey and Linda Collins participated in the Minden Winter Carnival Spiel and were defeated in the finals of the second event for the President's Trophy.

Dick McLean and his rink of Gary Bailey, Clark Bailey and Glen Blair journeyed to Ennismore, but unfortunately were defeated two games straight in the Colts competition.

This coming Wednesday (January 31) our Rotary Club is sending four rinks to Fenelon Falls to participate in the annual Fenelon Falls Rotary Bonspiel. Good luck fellows.

Weekly curling at the rink has been producing some excellent games. Teams seem to be quite evenly matched, so if you are looking for something to do some night, why not drop by the club and watch some of the action.

Norland Notebook

by Barbara Maunder

As the snow mixed with freezing rain piles up on the roofs of buildings, I hope that the radio messages telling people to check the snow load on their cottages in Kawartha, Haliburton and Muskoka area, are reaching the right ears. Reports today (Friday) indicate that at least 60 cottage roofs in Muskoka have collapsed. The Ministry of Natural Resources claims that the snow is especially deep in the Keweenaw Lake area. It is difficult for people living south of here who have only a few inches of snow on the ground, to realize how deep the snow is in cottage country. Time is of the essence.

Nineteen interested horticulturists attended the annual meeting of the Norland Horticultural Society on Monday, January 22 in the public library. Elected president was F. Vernon LeCraw, first vice-president, Roy Bryant, second vice-president, Jesse Buxey and secretary-treasurer, Mrs. Rotha Bryant. First year directors are Mr. and Mrs. C. Cover, Fred Hanson, Mrs. Hilda Buxey and Mrs. Sharon Greer. Second year directors are Mrs. Ethel Hanson, Mrs. Thelma Saunders, Mrs. Eleanor Crane, George Neath and Mrs. Barbara Maunder. The Ontario Horticultural Convention will be held in London, Ontario, District 10 at the Holiday Inn on June 14 to 16.

Our local Horticultural Society was formed in 1957

and its members have been responsible over the years for the transformation of a swampy area beside the post office to a parkland with a stone wall along the river, benches, flowering crab apple trees, evergreens that have coloured lights at Christmas time and attractively planted flower gardens and rockery in the summer months. The two planters with the bright arrays of summer flowers that are at south entrance of Norland on Highway 35 and east of the bridge on north side of Highway 503 are also projects of the Horticultural Society members as well as the care and weeding of these beds. Membership is \$1.50 and new members are always welcome. If you are interested in joining or offering assistance to the society, please contact Mrs. Rotha Bryant, at the post office.

On Tuesday, February 13, the Norland Horticultural Society invites all interested persons to the community hall at 8:00 p.m. to a presentation of slides of Great Britain taken by Mr. and Mrs. Ed White of Cobocok. Refreshments will be served afterwards.

Norland Firefighter's Hockey Pool winner on Saturday, January 20 was Clyde Pardy of Cobocok.

A special community and family fun night and dance is being planned for everyone at the Norland Community Hall on Friday, February 16 from 8:00 to 12:00 p.m. Music will

be supplied by records and tapes and there is no admission charge. The Ladies Auxiliary would like to have more family oriented activities with parents and children enjoying an evening together and if this dance proves to be popular, others will follow. The bar will not be licenced but soft drinks and light refreshments will be for sale. Plan to attend as a family and enjoy this occasion.

Newcomers to Norland are Mr. and Mrs. George Henderson who purchased the home formerly owned by the Howards on Cockburn St. The Hendersons lived in Toronto and after retirement moved to Chapleau but only stayed about a year because both of them are gardeners and they found that Chapleau is so far north that the growing season is too short. We are pleased that they decided to make Norland their home and extend a warm welcome to them and wish them better gardening.

"Portraits or Portugal" was the theme for the fascinating and descriptive pictures shown at the Academy Theatre, Lindsay on Thursday, January 24 sponsored by the Rotary Club. Mr. and Mrs. Bob Chrysler of Chatham narrated and described their delightful and colourful trip to this most westerly country of Europe. It is about the size of the province of Nova Scotia - only 135 miles wide and measures 350 miles

from north to south. Lisbon, the capital is a mixture of many cultures and could be described as half of it is still as it was in the middle ages and the other half as modern twentieth century. Many of the Portuguese bridges were designed by Eiffel who is world renowned for his Paris Tower. The bridge over the Tagus River in Lisbon is the longest suspension bridge in Europe. The Chrysler's captured all of the charm and beauty of this country and its people and a pleasant two hours was enjoyed by all who were present. The next Rotary Club travelogue is on February 22 - Exploring Norway and narrated by James Forshee.

Many people must have been interested in the weather on Wednesday, January 17 (if you remember, it was quite a day for freezing rain and snow) because the Toronto telephone number to hear the recording of that day's weather was called more than 2,540 times during the 24 hour period.

A friend showed me an idea that she used for a still good pair of snow boots that had too smooth soles on them. She used the rubber decals that ordinarily are placed on the bottom of a bathtub to keep a bather from slipping but instead she cut them in strips and stuck them on the soles of her boots and now can wear them without the same danger of sliding.

Kinmount Klippings

by Fran Crawford

Hi folks: Well, everyone has dug themselves out of the snow by now. Just imagine the sun is shining and it's Monday.

The winner of \$12.75 in Legion Branch 441, Saturday was D. Lrdouleur of Bobcaygeon.

This week the groundhog will tell us how much longer till spring. I see the creek by Irondale steak house was open water this morning.

It is just a couple of weeks 'til Valentine's Day. I see some posters out now for the different dances sponsored by Kinsmen Clubs, Legions and so on. Don't forget to get a ticket early. I'll have places and dates for next week.

Oh! Oh! Our hockey team didn't do so well last Thursday.

They lost 14 - 6 to the Rockcliffe Hotel in Minden. Mr. Bill Boxall has been in Haliburton hospital after suffering a heart attack.

Talk about luck. Gladys Silver won \$106.50 between Bingos at Kinmount and Cobocok last week. She took a drop on Friday and only won \$19.50. This week's Legion bingo is 59 numbers called for a \$190.00 jackpot.

Don't forget Thursday night is Wintario.

News is scarce this week. See you later.

District News

West Guilford News

by Jackie Barry

Congratulations to Mr. and Mrs. Derek Titus on the birth of a baby girl last week.

Miss Andrea Barry of West Hill spent a few days with Mr. and Mrs. Jack Barry last week. On Sunday she cele-

brated her 16th birthday, with her grandparents and cousins.

Mrs. Irma Sisson is spending a while with her daughter Leslie and family in Oshawa. Ron and Violet Sisson travelled to Peterborough last

Saturday to visit Mr. Keith Sisson, who is still in the hospital there. Keith is expected to come home on day this week.

Get well wishes go out to Mrs. Bessey Sims, who is in hospital in Toronto.

Wilberforce News

by Winnie Schofield

The investiture of Ed Schreyer as governor-general of this great country took place on January 22, 1979. Another noteworthy incident of this date was the arrival of a fine baby boy at the Haliburton Red Cross Hospital. The proud parents of this nine pound, one ounce son are John and Mary Barker. Small sister Jodi welcomes her new playmate.

Have you noticed the courses being offered this winter by the Sir Sandford Fleming College? A variety of subjects are available. There is something of interest for everyone. Consider the course in accounting. This could be of benefit to women who keep books for their husband's business. The bartending workshop could provide the information necessary to those who are assisting at the many social events taking place during the year. Courses in crocheting, weaving, batik or pottery would be of interest to those lucky souls who gifted in these handicrafts. Learning the technique of stained glass or of welding might appeal to some. The downhill skiing and the ballroom dancing would add some fun to your life.

The senior citizen series covers many worthwhile ideas and these classes are held during the day. In addition are great programs for women, teens and children. If you wish further information call at your library where a complete list of courses, places, times and fees will be available.

Monmouth council is looking ahead to the future growth and development of Wilberforce. They recently held a meeting with a number of ratepayers to discuss the rezoning of that section of the West side of Main St. reaching from the library to Flemings Road. Residents of this area were consulted concerning the rezoning of their property from residential to that of commercial. Ray Casey decided that it would be to his advantage to remain residential. All others wished to be rezoned to commercial. At this meeting there was a lively discussion of the Main

Street parking problems. No solution was reached at this time although several recommendations were suggested.

Under a new policy that hydro wires cannot cross navigable waters, the hydro line across Dark Lake must be removed. A three phase line is being constructed along the south side of the arena, across the Burnt River and thence to the new Wilberforce Veneer plant now under construction. This line will also service all residents on Schofield Drive.

Tory Hill News

by Gloria Billings

Come one, come all, meet your family and friends on February 10, 9 p.m. at the Lloyd Watson Memorial Centre for a dance with the proceeds going for renovations for the Tory Hill School. This building is now used for showers, ski-doo rally, euehres, meetings, etc. Music is to be supplied by Marg Graham and the Westernaires.

Get the ski-doo ready and head for Tory Hill, March 10 for their annual ski-doo rally. Watch this paper for further details.

Mrs. Gerald Cooper and children of Minden spent a day last week with her mom, Mrs. Elsie Watson.

We understand Bert's Esso stayed open all night during the recent snow storm. We commend you for your concern for others.

Miss Helen Bates of Toronto was home for the weekend and her mother accompanied her back to Oshawa to visit relatives.

Sir Sandford Fleming College is offering some really good courses and now is your opportunity to take part in the ones of your choice.

Don't forget to let me know any news you would like put in the paper and thanks to those who have contributed.

Danger, danger, watch those cottage roofs. With so much snow now they may need cleaning off.

Chatting with Irene

by Irene Moore

Well, my friends, I kept wishing January would soon be over, and now I have my wish, for when you read this, it will be either the last day of the month, or February. The Farmers Almanac sure kept letting us know what the first month of 1979 would be like: and I still do not like what they say about February, because they say the same for the first part anyway. Oh well, maybe on the second it will be cloudy so that friendly animal will not see his shadow. I sure hope so for the saying is "If February gives much snow; a fine summer it doth foreshow". Man, I sure hope so. Some snow I like, but when it gets so high I can't see over it to get out of the driveway, then I don't like it, do you?

It is good to know that Mrs. Mary Oliver is home again and feeling much better. We all hope that the last treatment she had keeps helping her, for she is a wonderful lady.

It was a very mild weekend for the carnival, and the stock car races on ice had to be postponed until February 17 and 18, also February 24 and 25, weather permitting.

Mr. and Mrs. Mervin Bunker had her sister, Mrs. Don Davis and son Brian of Georgetown as guests for several days.

Our Minden teams did well on the weekend. On Saturday the Minden Novice team beat Sunderland out for the championship in the tournament at our arena; the Pee Wee "A" team played both Saturday and Sunday in Haliburton at their tournament and won the grand championship over Willowdale, by a score of 4-3. Great work kids but do keep it up for the playoffs.

Mr. and Mrs. Dick Schell are enjoying the sunshine of Jamaica while on holiday there.

The Single Parents meetings have started again and they are held the first Thursday of each month. The next meeting will be at Debbie Packard's at Eagle Lake on February 1, 7:30 p.m. Hope there is a good turnout.

They say a new broom sweeps clean, and it has come to my attention that one of the men at the Minden arena has been let go. I have been up there a lot and all three men in charge have been efficient and most cooperative. That arena is open from early morning to early morning. Can two men be expected to work all those extra hours? Don't try to tell me I do not know whereof I speak for I have often been there at 7 a.m. for that is when they start work if early events start and it is after 12 p.m. when they are finished, if then.

The Carnival Queen was Kristine Kinsman; Princess - Marie Madill; Jr. Princesses - Debbie Ingram and Dawn

Elliot. Holidayers in the south are Earl and Emma Hewitt, also, Charles and Shirley Brandon.

Recent guests with the Milt Sears were the Paul Warburtons, the Glen Sears and Miss Sandra Sears.

Winners at the Mini Card Party last week were: eucalyptus hand, Della Griffin; Alice Clark, Pearl Cowan; Cribbage - Joyce Hewitt and Mary Maiden.

They used to say "A fool and his money were soon parted" ...but now it happens to all of us. (Thursday Post).

Mr. and Mrs. Ray Miller of Peterborough visited in the village over the weekend.

It sounds like the ladies are starting to get in shape for the baseball season next summer. They invite everyone to join them at the Aché Stouffer School Gym for basketball every Tuesday evening, 7 p.m. For more information call 286-2039.

The United Church Women are holding their first meeting of 1979 in the church hall on February 5, 7:30 p.m.

Mr. and Mrs. Howard Hogg of Parry Sound were in town over the weekend.

A large crowd visited with Mrs. Swan Ackers on her 90th birthday last Sunday.

Don't forget the Kinette Valentine Dance on February 10. More details later.

By the way the CBC were in Minden filming the Winter Carnival. The film will be shown on channels 3 and 12 shortly. Not confirmed yet is the date February 6 at 6:30 p.m. Be sure and keep on the watch for this program.

Don't forget Family Film night is on Thursday February 15. To get all details phone a Brownie mother or 286-1106.

Mr. and Mrs. W. Moore are pleased to have their son, Leading Seaman, Garnet Moore of C.F.B. Halifax, N.S. visiting with them for several weeks.

This week I will be able to give you a recipe. Soybean Cookies - 2 cups mashed cooked soybeans (measure after mashing); 1 cup shortening; 2 cups sugar; 3 eggs; 1 cup unsweetened applesauce; 1 tsp. vanilla; 4 cups flour; ¾ tsp. baking powder; ¾ tsp. soda, ¼ tsp. salt; 1 tsp. cinnamon; 2 cups raisins; cream together mashed soybeans, shortening and sugar; add eggs, applesauce, vanilla, then beat well, sift flour, baking powder, soda, salt and cinnamon and blend into soybean mixture; add raisins and blend; put into a lightly greased 1" deep sheet pan; or use several large size loaf pans. Spread the dough very thin or the cookies will be very thick when baked. Bake at 350 degrees for about 15 minutes, cut into squares or bars. This is a soft cookie.

The Library - Museum Committee were very pleased to receive a donation of \$450 from the Molson Company Associates towards the new complex being planned.

Minden Juveniles will be playing the first game of their playoffs at the Minden arena next Monday evening February 5. Watch for details of time and team on the posters.

Don't forget the Juveniles are No. 1, so be sure and come out and cheer them on. Adios and take care now.

"Stubbornness we deprecate, but firmness we condone. The former is our neighbour's trait, the latter is our own."

On Wednesday of last week we had one of the most disabling storms of the year. A quantity of heavy wet snow fell, making driving hazardous and being the second bad Wednesday in a row, weather-wise, many meetings had to be cancelled. Due to the heavy snow on trees, many trees fell on power lines, disrupting electricity coming into the area. Some of us were fortunate and power was back on in a few hours, but others in the area were not so lucky and had no lights, heat or cooking facilities for close to 48 hours. Thank goodness it wasn't severely cold weather, but was still quite a hardship. We can do without anymore nonsense like that.

We are happy to report that Don Little is back home after a short stay in Huntsville Hospital. Don and his wife Agnes are residents of Shoe Lake but spend the winters in one of Krause's cottages.

Sir Sandford Fleming College are having a number of courses in Haliburton this winter and I thought some of the local people might be interested in some of them. There are daytime and evening classes and they vary in duration. There are classes for both men and women and subjects to interest all age groups. There are recreational courses, such as ballroom dancing and skiing,

crafts which include pottery, weaving and crocheting. Classes to learn trades, Chinese cooking classes and personal development courses and many, many others. If you have any interest in any of these contact Sir Sandford Fleming College, Box 339, Haliburton, Ontario. KOM 1S0.

Well, it's that time again. The Dorset Lions Club will be sponsoring their annual ice sculpturing contest for individuals or groups. The judging will be on Friday, February 16. If you have an

entry please call Lion, Leon McKey by February 14. The prizes are: first - \$25.00, second - \$15.00, and third - \$10.00. It is a challenge to test your skill and artistic creativity.

I hope everyone has had their roof shovelled off. With the wet snow the weight is tremendous. I heard a man gave some statistics. He gave the size of his roof and had weighed the snow from a small portion and then figured the weight of what would be on the whole roof. It was many tons. Astounding.

Best wishes to Percy Britnell who is in hospital in Toronto. Don't forget the benefit dance for the Reids on February 10th. Tickets are going well but there are still a few available. Call Shirley Harrison at 754-2984.

Next weekend is Whipper Watson's Snowarama, Sunday, February 4. If you are not riding a machine, support crippled children by a pledge to a friend who is participating.

Best of luck to Jim Purves and Florence Harrison who are in the General Hospital in Toronto.

Keep in mind the special film entitled "A Walk In Another Pair of Shoes" to be shown at the Carnarvon U.C.W. meeting next Wednesday at 1 o'clock p.m. This film concerns children with learning disabilities and since this is the year of the child, it seems appropriate. Any interested person is invited to attend.

February is Heart month and across Canada a national campaign is on to hopefully raise \$11 million for the fund. Money raised will be used to

help in the fight against heart and blood vessel disease, which is the number one health "enemy" today. Do you know that since 1956, the Canadian Heart Foundation has spent more than \$60 million on research. When your Heart Fund volunteer canvasser calls on you, support them as best you can. "Give that more may live."

The store vacated by "The Gibson Girl" is now being operated by Darlene Clouston. It is called "Tip Top Toes" and is open every day but Sunday from 9 to 6 p.m. You will find clothing for men, women and children including jeans and gowns. Something unusual being offered is personalized T-shirts. The T-shirts are made

by Better Tee-shirts and Darlene has all the newest heat transfers. She carries "Big Gals" bras and gowns so no matter you age, sex or size, drop in and browse around! She can even sell you a Siberian Husky dog, registered, even though you won't find any puppies indoors. Just inquire. Maybe next week it will be goldfish. She will also be carrying some ceramics - How is that for variety?

Preliminary county fair books are being placed in the following stores: West Guilford Plaza; Stedman's - Haliburton; Agnew's Store, Wilberforce; Finlays Store, Toot Hill; Foster's Store on RR 2 and Stinson's Store at Hall's Lake. More places to be listed at a later date.

Coboconk News

by Shiela Lake

Mrs. Maizie Kelly is back at work after a visit with her sister-in-law and brother, Mr. and Mrs. Harold Breaw at Port Hope. Her sister-in-law is recuperating at home in Port Hope following surgery. Maizie also visited her sister, Mr. and Mrs. E. Williams at Nogie's Creek, Bobcaygeon.

As I write this early Saturday morning, hydro trucks are making their way east on our Baseline Road. We are very fortunate in that we were never without power since the severe storm of early Wednesday. However, neighbours, just a mile up the road are still without power and are feeling the hardships. Lucky us, we have kept an old fashioned wood burning cook

stove so we can bake, roast, boil water and keep warm. I would like to hand bouquets to our Somerville township road crew who have done well at plowing out roads, working long hours under trying conditions. The little "island" area on our corner has been kept clear of snow which should be always the case. Other years, our drain sewer was covered with snow from the three corners and when spring came along, often we personally went out with shovels and crow bars to try and find the drain, wading through water, fishing blindly for the drain. If maintenance is kept up the rest of the winter, the drain will serve its purpose and no one will be

getting stuck out here. The grader has also removed all those potholes at the bottom of the street this morning; a good thing, before freezing temperatures come again.

Have you a wedding, an anniversary, an important birthday, or a club dinner that you wish you did not have to worry over? I mean - would you like the services of a caterer? To my knowledge, we do not have anyone in the immediate area, qualified to do so. Unless you want to order fried chicken from Fenelon Falls! There is a gal here in town who would appreciate hearing from you if you could use her services. Her grandparents and her parents ran a catering busi-

ness in Toronto, and she is very qualified to carry on the tradition here. She has always worked with food and helped with all the fancy goodies ever since she was old enough to butter bread! Pick up your phone and dial 454-3045 - or if she is out, drop a note to Mrs. Joan Bowins, Water Street, Coboconk, Ontario. Be sure and give her your own name and phone number and discuss your needs with Joan. She is hoping to get some idea just how great the need for catering is in this area, and would love to hear from you.

Mr. Lorne Farrow, who is employed at Wilberforce Veneer Company at Wilberforce is still ill at home with a severe back problem. We wish Lorne a speedy recovery and trust he will soon be able to return to work.

Carnarvon News

by Yvonne Penney

Old man winter has sure dumped lots of snow on us early this year. The men from Ontario Hydro have been working hard and are gradually getting power order restored. I understand we have crews in from outside the area to help in the big job of restoring lines after a severe storm like we had last week.

There certainly was no shortage of cameras around the Minden Carnival this past weekend. All of our own newspaper cameramen as well as Chex news from Peterborough and apparently a CBC crew filming a documentary.

Congratulations to the carnival queens and princesses, junior queen - Debbie Ingram and her princess, Dawn Elliott, also the senior queen, Christine Kinsman and her princess Marie Madill. I also watched the figure skating on Friday night and could see that the girls had really progressed since last year. There was quite a good parade on Saturday and a good crowd around the arena area on Saturday afternoon.

We had a good crowd out to our road beef dinner here in Carnarvon on Saturday night. We came home with sore feet but it was worth it to see it successful.

Best wishes to Percy Britnell who is in hospital in Toronto. Don't forget the benefit

dance for the Reids on February 10th. Tickets are going well but there are still a few available. Call Shirley Harrison at 754-2984.

Next weekend is Whipper Watson's Snowarama, Sunday, February 4. If you are not riding a machine, support crippled children by a pledge to a friend who is participating.

Well Drillers

The first entrant in the ice race to be held during this year's Haliburton Rotary Winter Carnival is Bob Parker and his F250 4X4 Ford. The race will feature solo classes for 2 and 4 wheel drive trucks, cars and dune buggies.

Maple Lake News by Elaine Barjarow

- Intended for last week -
Visiting with Earl and Merle Redner over the weekend were David Fader of Lindsay also Val and Cheryl Redner and family of Gravenhurst.

Eleanor Harrison along with Eric and Ruth Barry spent four days in Toronto last week.

Orville Harrison called on his sister Winnie Fader. Also calling was Kenny Bannan to let her know that June and Ken Bannan arrived safely in Florida. They ran into a lot of snow through the northern states on the way down.

Our sympathy goes out to the family and friends of Mr. Norm Hobbs who passed away last week.

This Week's News
Charlie Morrison spent one afternoon visiting with Murry Barry.

Very sorry to hear that Julie Harrison has had a heart attack. All her friends from Maple Lake send their best wishes and we hope she soon feels much better. If anyone would like to send her a card the address is: Oshawa General Hospital, 24 Alma Street, Oshawa.

Charlie and Grace Morrison visited in Lindsay for the weekend with her brother and family, Claude Fader.

After the heavy snow we have been getting, people should be reminded to have their home and cottage roofs checked. It would be a great loss if a roof collapsed. There are a great many people who will shovel the cottages off.

Harry, Audrey and John Fountain made a business trip to Toronto last Monday. My husband and I along with Winnie Fader took our

little granddaughter Keri Castle home to Toronto on the weekend.

I was very interested in the winter courses that are being offered by Sir Sandford Fleming College here in Haliburton. These courses are many and varied and should interest everyone who would like to learn something new, get new ideas on things they are already interested in. It certainly is nice that we are able to take these courses in our own area, rather than having to go to Lindsay or Peterborough or even further away. I hope they have a very successful year and classes are well attended.

Doug and Carol Wall made a business trip to Peterborough last Thursday.

Mr. Klassen came up to check his cottage and shovel off the roof.

Monday afternoon our ladies had another go at the quilt they are making and it looks as though a quilt will really come out of it. Among those working were Mrs. Vera Griffin, Mrs. Maud Weston, Mrs. Hazel Parish, Mrs. Ada Denholm and Mrs. Flossie Burk all in the guidance of director Mrs. Burk and a volunteer helper Mrs. Freda Stewart. We will report progress as it occurs. Further to this Norman Titus and Mrs. Florence Stagg were busy sandpapering, then varnishing the laminated wooden plates to make wall decorations that will be sold at some future bazaar. These plates previously mentioned were a gift to us from Wilberforce Vencer and Lumber Company Limited. They will be nice when finished.

In the evening Mrs. Anita Dillon, aide on the nursing staff, gave us three miniature oranges, which if we are successful will produce miniature orange trees that are productive of much bloom and later fruit. This summer it is possible that bees will do the pollinating and at other times we can do it ourselves with some guidance. It may turn out to be an interesting venture.

Tuesday morning was spent in working the laminated wooden plates Norman Titus, Ray Smith and Mrs. Florence Stagg sandpapering and varnishing, then Jake Gill affixes a half plate by drilling holes through and through then tightly lacing them with heavy phentex

yarn. This is made a very useful wall pocket or a similar decoration because Jake has made them exceedingly attractive.

In the afternoon was bingo as usual with a new volunteer helper Mrs. Velma Stringer of Haliburton and the several others who usually come.

We have a round jigsaw puzzle to work on - not so difficult but very slow. The others were completed but one, and it, being a small one and tricky, apparently with some pieces missing was given up in frustration and will be resurrected later when we are in better humour. One would think these puzzles would be quite popular here, but many look at it a few minutes then walk away.

This massive deluge of snow gave much additional work to Charlie Welch to keep this frontage clear for an ambulance visit, using the only tool he had, one of those snow pushers. Excessive snow such as we had soon takes up some of the walkway being cleaned and then has to be frontally lifted over the bank and then beyond, making it the hardest of all jobs.

Another program has been added to the week; that of Bible study led by Mrs. June Devolin of Haliburton, the first meeting being last week, Wednesday a.m. This week Mrs. Devolin was assisted by Mrs. Jane Johnston, nearly our next door neighbour. The theme "We must believe and declare it publicly before we are accepted for salvation". It is a nice pastoral service, audience participating and

Mrs. Johnston reciting the 23rd psalm.

Everyone wants to feel like somebody.

Trudeau has done in his decade, with the help of his Clark-Broadbent allies, what Montcalm could not do on the Plains of Abraham; defeated the Anglophones and ceded Canada to the Francophones.

Captain Doug Barry of the Haliburton Salvation Army was our spiritual leader for the devotional period Friday morning, pinch hitting for Rev. Don Nicholson of the Haliburton United Church. The music of Captain Barry with his accordion was nice. The theme was "lead me in a plain faith", amply enlarged in the service. As was in this "Amazing Grace" seems to be an all time favourite among us. For the snack that was provided after the service, it was left to Mrs. Pat Burk, our director to do the serving honours. Thanks, Captain Barry for doing this extra stint.

At this time we discovered we had two very energetic

members, Charlie Welch, manager of our country store, and Norman Titus, an exemplary tireless worker, shovelled three feet of snow off the roof of our storage shed, then cleared the frontage. This snow was tightly bonded to the roof and surely was no easy task.

In the afternoon were movies: 1. "Inventor of Things", showing the various antics of a man convinced he is an inventor; 2. "Power in Perpetuity", showing the development of the power of the upper falls on the Churchill River in Labrador. It is amazing the tremendous expanse of the morass comprising the Labrador plateau, a morass that holds a reservoir of an incredible amount of water even without damming. The construction of the generating capacity was a feat unequalled anywhere before or since. We are indebted to the Lake Ontario Library Board of Haliburton for providing this interesting film. 3. "Metric"

showing the many advantages to learning children of the metric system and discarding any others.

We extend a vote of thanks to Miss Karen Henderson for her generosity in donating to us a sizable number of excellent jigsaw puzzles. Karen as you will note if you read this column weekly, is also one of our volunteer helpers. Thanks Karen.

Ordinarily we should have attended the pot luck dinner put on Thursday by the Senior Citizens Club of Haliburton and to which we were invited. Owing to the inclement weather it was thought better not to venture out in cars loaded with the elderly so we begged to be absent.

Jack Pollard had a very homey visit from his son David, Sunday evening, who treated his dad to a sumptuous supper at the Fogg's restaurant at Carnarvon. David is a teacher at Warden Avenue School in Toronto.

Children do not necessarily take to a business career.

The mild thaw these last few days has sure been welcome to us as well as doubt to the Ministry of Transportation and Communications.

KOSHLONG LAKE: Well furnished 3 bedroom cottage with brick fireplace, plus large sleeper cabin and storage shed on 200' plus lakeshore. Easy access by road.
WEST GUILFORD: Family business for sale. Motel Restaurant, convenience store, etc. Excellent condition.

ASSOCIATE

Guild of Fine Arts News by Carole McLean

How do you as a crafts person, evaluate your work? How do you decide the degree of your talent or ability? These are questions all crafts people and artisans ask themselves. We are all influenced to some degree by people who admire our work, but if the truth were known the majority of crafts people lack confidence in their own work and remain their own worst critic. He or she is continually under the impression that the work of others is superior to their own, hence the lack of competition on a large scale.

The fact remains, there is only one way for an artisan to gain confidence and that is to have his work evaluated by professionals who have already attained recognition in their respective fields. To do this they must submit their work to juried shows.

Are you a serious crafts person or artisan in Haliburton County, who would like a professional evaluation of your work? The Ontario Crafts Council's 1979 Central Regional Show is to be held at Georgian College in Barrie, Ontario, on May 6-20, and its significant that in 1980 the Central Regional Show will be held right here in Haliburton at the new "Guild Station Gallery". Until now, no crafts person from our area has submitted work to any of the Ontario Crafts Council, Mary Wallace, feels it is time for our own artisans to stand up and be recognized.

Here is how you do it. Entry forms will be available through the Guild of Fine Arts. All work to be entered must be finished by the end of February, at which time a professional photographer will be obtained to take slides of the submitted pieces, (each artist is limited to two) which

will then be sent to the Ontario Crafts Council. After this preliminary jurying, the creator of any work the Council feels is qualified for entry (remember the piece will be competing against the best Ontario has to offer) will be notified.

Winner of the Central Regional Show will be joined by the other regional winners from across Ontario and the overall winners will be sent across Ontario in the travelling craft shows sponsored by the Ontario Crafts Council. So you see it can be a beginning. We only learn and become proficient by competing against our peers.

Concert
There are many activities planned for the near future to raise funds for the new "Guild Station Gallery" and the pottery group is starting off these activities by selling tickets to a piano and flute recital, by Bill Gliddon and Melissa Stevens, to be held at the Anglican Church hall on February 25 at 3 p.m. Bill and Melissa have most generously donated the proceeds of

their recital to the new "Gallery" - please come and hear these two very talented residents of Haliburton County. Watch for further details in the "Coming Events" column.

SPRING CLEANING
If you were influenced by the warm weather we had over this past weekend and had the urge to spring clean, don't throw any of those treasured articles away. The Guild Scholarship Fund is now collecting for their annual auction sale and would gladly take them off your hands.

Just drop by the School of Fine Arts with them or give Doreen Elstone a call and she will make arrangements to have them picked up. So if you have started or are planning too, give us a call. Thank you.

Correction
In last week's column, in stating Marilyn Stouffer's phone number for tickets to the "Evening of Theatre" in Bancroft I stated it incorrectly. It should have read 489-2395. Hope it hasn't prevented you from obtaining tickets. Hurry time is short.

Registered Retirement Savings Plans*

Put a little aside for the future with a Victoria and Grey Trust Registered Retirement Savings Plan. Victoria and Grey has 5 RRSP Plans from which to choose. The money invested in each Plan provides for tax deferrals and the return on your investment is allowed to accumulate tax-free until you withdraw the funds from the Plan. Simple. Safe. Come on in, it's time we talked about tomorrow.

Contribute to, or purchase a V & G RRSP and become eligible to win a trip for two to Jamaica.

Rested at the Funeral Chapel of John Welch & Son Ltd., Minden, after 2:00 p.m., Monday, for complete funeral service and committal in the Chapel on Tuesday, January 30, at 1:30 p.m. Interment at Rosemount Cemetery, Peterborough.

AT REST
At the Hyland Crest
Senior Citizens' Home,
Minden on
Sunday, January 28, 1979

ADA LOUISE WOOLACOTT
In her 88th year.
Beloved wife of the late Wilfred Woolacott; dear mother of Lorne of Essonville; loving grandmother of Elmer, Sharon, Brenda, Kenneth and Ronald; dear sister of Ethel Hutchings, Ella Maughan and Cecil Payne, and predeceased by Cephas and Percy Payne.

FUNERAL SERVICE
Rested at the Funeral Chapel of John Welch & Son Ltd., Minden, after 2:00 p.m., Tuesday, for complete funeral service and committal in the Chapel on Wednesday, January 31, at 1:30 p.m. Spring interment at Essonville Cemetery.

32. IN MEMORIAM

IRISH, Charles Edward - In loving memory of a dear father who passed away January 21, 1972.

Every day in some small way
Memories of you come our way.
Though absent, you are ever near
Still missed, loved, always dear.

Sadly missed by son, Gerald and daughter-in-law Joan. CB/31

NEWELL - In loving memory of a dear mother and grandmother, Victoria Newell, who passed away January 13th, 1973.

You never really left us,
You are everywhere we are.
We look up to the heavens
You are smiling from a star
You are smiling from a sun beam
In our lives you're still a part
You never really left us,
Mother
You, live within our hearts.

Lovingly remembered by Mike, Yvonne, Kevin, Cheryl and Glenda Newell. 31

ROBERTSON - In loving memory of our dear father, Rev. W.J. Robertson who passed away on January 29, 1957.

Always lovingly remembered by Mary, Douglas, Murray, Evelyn and families. 31
